

New Source Review newspaper advertisements for construction permit applications, March 6, 2008. The following public notices have been published in the newspapers listed below each advertisement. These newspaper advertisements for construction permit applications were published on one of the following dates: March 4, March 5, or March 6, 2008. Public notices are generally published every two weeks. The previous publication of public notices was February 21, 2008.

PUBLIC NOTICE

The Tennessee Division of Air Pollution Control (TDAPC) has received requests for construction and/or modification of air contaminant sources as noted below. The proposed construction and/or modification is subject to part 1200-3-9-.01(1)(h) of the Tennessee Air Pollution Control Regulations, which requires a public notification and 30-day public comment period. Interested parties may express their comments and concerns in writing to Mr. Barry R. Stephens, Director, Division of Air Pollution Control, 9th Floor, L & C Annex, 401 Church Street, Nashville, Tennessee 37243-1531 within thirty (30) days of the date of this notice. Questions concerning a source may be addressed to the assigned Division personnel at the same address or by calling 615-532-0554.

Individuals with disabilities who wish to participate should contact the Tennessee Department of Environment and Conservation to discuss any auxiliary aids or services needed to facilitate such participation. Such contact may be in person, by writing, telephone, or other means, and should be made no less than ten days prior to the end of the public comment period to allow time to provide such aid or services. Contact the Tennessee Department of Environment and Conservation ADA Coordinator, 12th Floor, 401 Church Street, Nashville, TN 37243, 1-866-253-5827. Hearing impaired callers may use the Tennessee Relay Service, 1-(800)-848-0298.

The applicant is Alcoa Inc. – Tennessee Operations with a mailing address of 2300 North Wright Road, Alcoa, TN 37701. They seek to obtain an air contaminant permit (Division identification number: 05-0008-27/61639) for modification of their Aluminum Reclamation Facility located at 300 North Hall Road, Alcoa, Tennessee. The existing operation consists of aluminum scrap crushing, conveying, delacquering and melting to produce aluminum. Natural gas is used for fuel. Cyclonic fabric filters, lime injected baghouse, low nitrogen oxide burners, and after burner are used for pollution control. The requested modification is for the addition of a crusher and delacquering furnace. There would be physical construction. Regulated air contaminants emitted by this source would increase. Mr. Steven Simpson is the assigned Division person.

For the Blount County *Maryville Daily Times* -- published once on or before Thursday, March 6, 2008.

The applicant is Cannon County Redi-Mix with a mailing address of P.O. Box 732, Manchester, TN 37349. They seek to obtain an air contaminant permit (Division identification number: 08-0043-02/61714) to construct a Rock Crushing Operation located between 1061 and 1513 Hwy 70S (John Brag Hwy), Woodbury, TN 37190. This proposed operation would consist of crushed rock storage piles, conveyors, and a rock crusher. The proposed construction would increase the air contaminant emissions due to crushing and processing rock quarried at the site. Because of the type of operation and type of emissions, the use of pollution control equipment is not proposed. Mr. R. Benjamin is the assigned Division person.

For the Cannon County *Cannon Courier* —published once on or before Thursday, March 6.

The applicant is Foliot Furniture Corporation with a mailing address of 189 Serral Drive, Greeneville, TN 37745. They seek to obtain air contaminant permits for sources located at the same address, as follows:

(1) Woodworking Operation (Division identification number: 30-0198-01/61682). This operation consists of several edge banders, CNC routers, table saws, automatic panel saw, sander and other equipment used to produce wood furniture. A baghouse would be used for pollution control.

(2) UV line (Division identification number 30-0198-02/61683). This operation consists of a wide belt sander that sands plywood. A baghouse would be used for pollution control.

(3) Surface Coating Operation (Division identification number: 30-0198-03/61684). This operation consists of three spray booths and associated equipment used to coat laminated particle board and plywood panel edges with stain and sealer. Exhaust filters would be used for pollution control.

(3) Gluing Operation (Division identification number: 30-0198-04/61685). This operation consists of a dovetail-gluing machine where adhesive is applied to the dovetail joints. Because of the amount and type of emissions, the use of pollution control equipment is not proposed.

There would be physical construction at each of these sources. Regulated air contaminants would be emitted by each source. Ms. S. Shajikumar is the assigned Division person.

For the Greene County *Greeneville Sun* -- published once on or before Thursday March 6, 2008.

The applicant is Town of Jonesborough WWTP with a mailing address of 123 Boone Street, Jonesborough, TN 37659. They seek to obtain an air contaminant permit (Division identification number: 90-0372-01/61488) for construction of a Tub Grinder located at 130 Britt Drive, Jonesborough, TN 37659. This proposed operation would consist of a tub grinder to grind wood to make mulch and use in composting operation. Because of the amount and type of emissions, the use of pollution control equipment is not proposed. There would be some physical construction. Regulated air contaminants would be emitted by this source. Ms. S. Shajikumar is the assigned Division person.

For the Washington County *Johnson City Press* -- published once on or before March 6, 2008.

The applicant is Southern Source Incorporated with a mailing address of 456 Swanson Drive, P.O. Box 727, Dresden, TN 38225. They seek to obtain an air contaminant permit (Division identification number: 92-0114-01/61230) for construction of an Dust Collecting Operation located at 221 Greenfield Products Road, Greenfield, TN 38230. This proposed operation would consist of an Industrial Baghouse "control" Dust Collector. Regulated air contaminants would be emitted by this source. Mr. Jim A. Attar is the assigned Division person.

For the *Weakley County Press* -- published once on or before Thursday, March 6, 2008.
